UMBER 58 of *The Journal of the Rossica Society of Rus- Philately,* just released, and sisting of 70 pages carries a amount of diversified informa- on Russian philately, plus articles on Poland No. 1. The er are by that outstanding ish student *V. Rachmanoff,* who fly outlines background details their emission; and *Vincent Do- ski, Jr.,* whose philatelic activi- date back 50 years, and who is of our foremost specialists in sh philately. Mr. Domanski was of the speakers at the annual *sica* meeting in November 1959, was also Nicholas A. Kormilev, se article on Russian coins of 18th and 19th centuries appears he current journal.

. *M. Rosselevitch* has an article the Wenden County Post, and another instalment of his series on *Postal Issues and Overprints of South Russia* 1918-1920. The latter is accompanied with an outline map clearly designating the Russian frontier in 1914, the largest territory occupied by the White Armies of the South of Russia in 1919, the front line on December 1, December 10 and December 20, 1919. As in most of the articles which appear in the *Rossica Journal,* this one is loaded with historical information and related postal history.

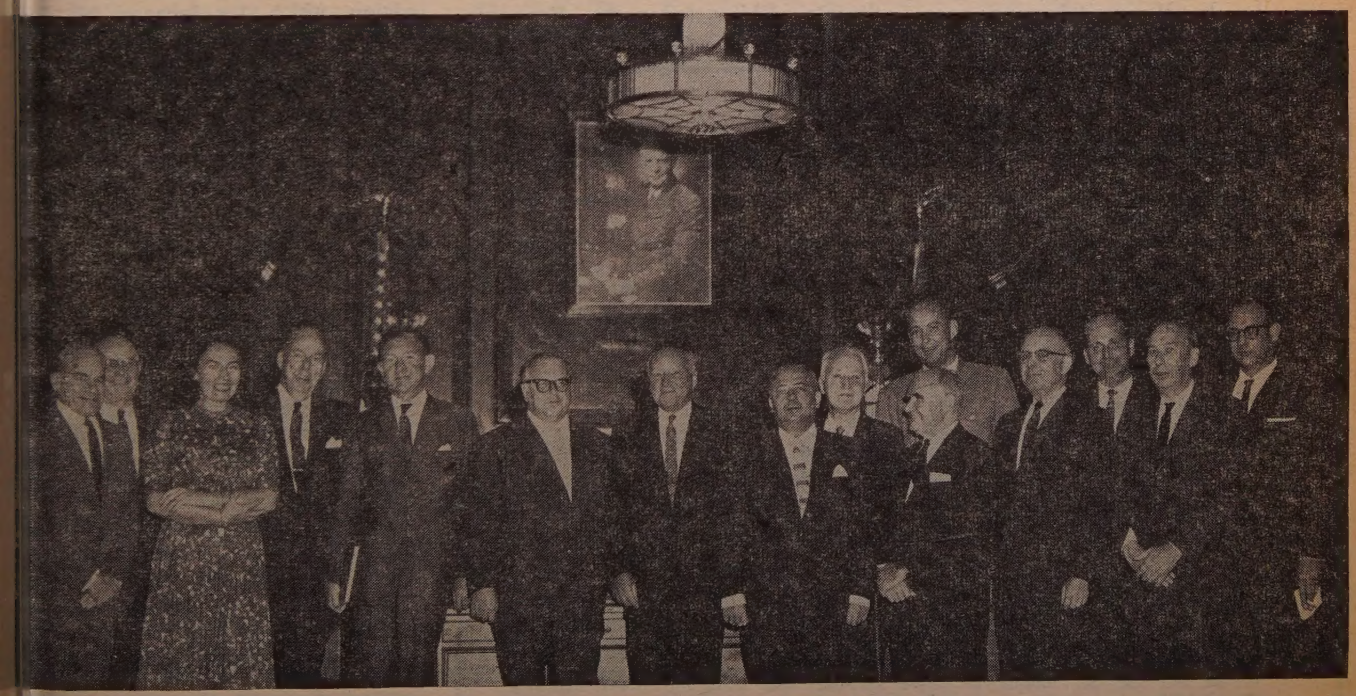
Kurt Adler has an up-to-the-minute continuation of his report on Russian "Sputniks", with illustrations and details of commemorative postmarks, as well as the stamps the Soviets have used and issued to commemorate their satellites and rockets. Mr. Adler also has articles on the *Centenary of the First Russian Postage Stamp* and the *Standard Issues of the Soviet Union.*

There is a brief article by *P. Matishev* on Zemstvo proofs. Incidentally, members received with this issue an excellent colored Zemstvo map, showing the cities which issued Zemstvos and the rail network of the major lines as they existed about 1900. The map was conceived by *Fred Speers,* and he secured the services of a non-collector but a first-rate professional artist, *Mrs. Alice Ray,* to do the art work. Copies of the map may be obtained for $1.00 each, or $1.25 if desired in a mailing tube, from Fred Speers, 560 E. Fourth St., Escondido, Calif.

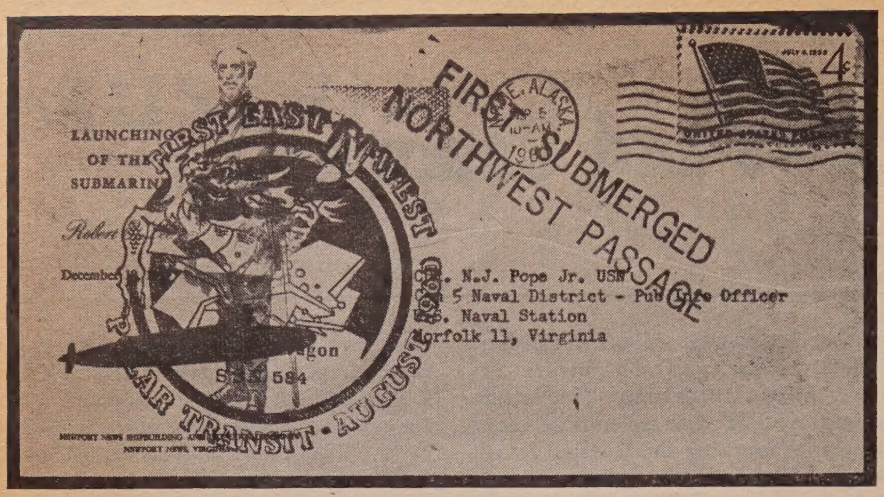
Dr. C. de Stackelberg furnishes some new information on *The Luga Issue,* supposedly issued in the German Military Area in front of Leningrad in 1941. His article on the *Arms Type Issue of* 1909-1923 is continued from No. 57.

A list of Railway Routes 1912-13, compiled by *W. E. C. Kethro* and *John Barry,* gives the distances (known as versts), as well as the name of the company and the route covered for each. This will be continued in a future issue.

Fred W. Speers discusses "Sess-



aster General Arthur E. Summerfield, center, with a visiting delegation from the German Federal Postal Administration whom he welcomed e opening of an exhibit of stamps of West Germany and West Berlin recently. The delegation was headed by Dr. Hans Steinmetz, of center, State Secretary of the German Federal Ministry of Posts and Telecommunications. Dr. Anton Besold, left of center, is a member Postal Advisory Committee of the Federal Parliament (Bundestag). Next to Dr. Besold is His Excellency Wilhelm G. Grewe, German ssador. Next to Dr. Steinmetz is Jacques Minkus, head of the World Wide Philatelic Agency, which distributes the stamps of West any and West Berlin in the United States and Canada. Also present were top officials of the U. S. Post Office Department. Picture was in the office of Postmaster General Summerfield.



Superimposed on a cacheted envelope commemorating the launching of the submarine U.S.S. Robert E. Lee on December 18, 1959, is a cachet-seal reading "First East West Polar Transit August 1960, U.S.S. Seadragon SSN 584 First Submerged Northwest Passage". This was postmarked Nome, Alaska, September 5, 1960. The U.S.S. Seadragon was the first to complete the Northwest Passage submerged. The U.S.S. Robert E. Lee, also a nuclear submarine, was launched in 1959 and was recently commissioned at Newport News, Virginia (16 Sept. 1960). Cover is shown through courtesy of Cdr. N. J. Pope, U.S.N., Commandant Fifth Naval District, Norfolk, Virginia.

wegon", one of the church localities in the Wenden district, in an effort to establish the proper orthography of this name, which is sometimes written in error as "Seeswegen".

Other areas of Russian philately covered in this issue of the Journal are The Crimea Surcharge 100 Ruble on 1 Kopek, by *I. L. G. Baillie;* Plate and Printing Characteristics of the One Rouble Arms Type Czarist Issues 1910-23 and Soviet Russia 1918-23 by *F. J. Fohs;* Tannou Touva, by *A. Cronin & W.S.E. There are several other articles, plus a message from the President of the Society, *A. A. Chebotkevich.*

The Rossica Journal is one of the greatest of our specialist publications, and has received numerous awards at international exhibitions, the most recent having been a silver award at POLSKA '60.

Membership, which includes the Journal, s $3.00 a year, and applications may be secured from *Dr. G. B. Salisbury, 49th and Locust Streets, Philadelphia 39, Pennsylvania.* —H. L. LINDQUIST

1954-60 LIBERTY SERIES PLATES

This new U. S. regular issue promises some of the interesting problems and fascinations of its predecessor.

As these were issued at wide intervals many collectors have missed obtaining plates due to the postoffice habit of using up older issues first and the restrictions imposed increasing the minimum quantity of stamps necessary to be purchased to insure receiving a plate block.

A gradual build up of our stock now permits us to offer the higher as well as the lowest odd values in two grades of condition.

Scott Standard Postage Stamp Catalog

Scott's Standard Postage Stamp Catalog 1961, Part II (Europe, Africa, Asia) 1,412 pages. Price $8.00.

THIS 117th edition of Scott's catalog Volume II, is the first under the new ownership of *Esquire,* and few publications in American philatelic history have been more eagerly awaited. It was not so much the catalog itself as it was a portent of what this venerable catalog's new owners were planning to do to rehabilitate the Scott line which had fallen sadly into disfavor because of protracted delays in publishing, failure to deliver album supplements and to revise pricings in line with current market values.

Volume II came out promptly on the advertised date, and was available throughout the country on Labor Day. This was a happy point of progress demonstrated by the new ownership. While there have been almost 41,000 price changes, almost every one of them up, there still remains a lot to be done pricewise, but we could not perhaps expect too much all at once. Readers of Leo Eaton's excellent *Stamp Market Tips* column in STAMPS are well aware that dealers drawing their stamp supplies from abroad are often paying full Scott or close to it. But collectors who do not have the benefit of Eaton's sage advice cannot understand why so often dealers charge them full Scott or more. It is to be hoped that drastic revision of the listings will continue to be made so that in due time the pricing throughout the catalog will be in line with the market.

Meanwhile we must give credit to the effort that has been made in the 196 edition, which, for instance, has 1,03 price changes for Japan alone, and 2,2 for Italy. If this is continued on a comprehensive scale for several years, realism will eventually be reached and bring the *Scott* catalog back to its former status with collectors and dealers. It will also greatly stimulate international transactions and legitimately add millions of dollars in value to existing collections and dealers' stocks.

So far as the contents go, with Egypt for years a sovereign state, the continued grouping of its issues under "British Commonwealth" makes no sense. There has been a growing tendency in the Scott catalog to cut costs and save space by illustrating one stamp in a set and describing the others, making it a frustrating experience for the collector trying to identify his stamps.

Furthermore, the two-volume catalog has been the work of dozens of hands and there are innumerable inconsistencies. For this reason, some stamps being listed while others of equal repute, appearing under almost identical circumstances, are not.

What is needed now is that the new organization give a slow, methodical overhauling of the whole catalog, under carefully drawn rules of classification which will standardize entries and listings, preferably with the aid of specialist groups.

Mainly with reference to the innumerable detailed country catalogs available today.

Colors, for instance, need a redoing very urgently, so that there will be some degree of consistency in the nomenclature used for stamps of the same color and hue. Why continue listing and pricing Mozambique Company 58, as an example, when Portuguese specialists aver that there is no such stamp? Similarly, why list the ungummed 10 Yen Japanese Kan-Goddess coil currently being discussed in ten or so major post offices, ignore the very rare identical coil with used in one vending machine only, the whole country, over some months 1959 until constant breakdowns through humidity action demonstrated it was impractical? There are thousands of such points crying for attention. I hope that the new owners will see these deficiencies receive that attention, so that Scott's catalog will recover its prestige and provide Americans with reference work actually worthy of the by which it has been called "The Encyclopedia of Philately."

Embossed Envelope Details

TECHNICAL details involving the 2½-cent and 1¼-cent embossed envelopes released May 28, 1960, and June 25, 1960, respectively, have been released by the Post Office Department.

Cameo hub die No. 1470 (Washington oval with denomination removed) was made at the Bureau of Engraving and Printing in February 1960 for use in preparing hub and printing dies for 2½c stamped envelopes. Die No. 1470 originated from master die No. 1390. The latter die was made at the United States Mint, Philadelphia, Pennsylvania, and was loaned to the Bureau. The denomination was engraved on intaglio hub die No. 1471 by Egosto A. Ligi, Bureau die sinker, after it was made from No. 1470. Die No. 1471 is the master die for the 2½c envelopes. Cameo hub die No. 1472, made from No. 1471, was used to make printing dies Nos. 6842, 6843, and 6844. The three latter dies were forwarded to the United States Stamped Envelope Agent, Dayton, Ohio, for use in printing the 2½c envelopes.

Cameo hub die No. 1467 (Franklin oval with denomination removed) was made at the Bureau of Engraving and Printing in February 1960 for use in preparing hub and printing dies for 1¼c stamped envelopes. Die No. 1467 originated from master die no. 1257. The latter die was also made at the United States Mint, Philadelphia, and was loaned to the Bureau. The denomination was engraved on intaglio hub die No. 1468 by Egosto A. Ligi, Bureau die sinker, after the die had been made from No. 1467. Die No. 1468 is the master die for the 1¼c envelopes. Cameo hub die No. 1469, made from No. 1468, was used to make printing dies Nos. 6845, 6846, 6847, 6848, 6862, 6863, 6864, and 6865. The eight latter dies were forwarded to the United States Stamped Envelope Agent, Dayton, Ohio, for use in printing the 1¼c envelopes.

A.T.A. Chapter Seeks Stamps for Geneva Convention Centenary

THE Minneapolis Chapter of the *American Topical Association* recently unanimously adopted a resolution calling on the nations of the earth, including the United States to commemorate the 100th anniversary of the signing of the first Geneva Convention on August 22, 1964.

As is well known, this was the first international agreement for providing humane treatment of prisoners and wounded men in wartime, and for protection of volunteer workers on the battlefield behind the lines; and this fact is included in the resolution, which was proposed by *Robert A. Clough, Sr.*, Red Cross State Relations Representative for Minnesota, and written by *Judge Levi M. Hall.*

Minkus Catalogs

THE MINKUS New American Stamp Catalog for 1961 and the Minkus New World-Wide Postage Stamp Catalog, Vol. 1, 1961, are both now available.

In the New American edition, which covers all classes of U.S.A. issues on a specialized basis, Conederate States, Canal Zone, Cuba, Danish West Indies, Guam, Hawaii, Philippines, Puerto Rico, Ryukyu Islands, the United Nations, there have been over 4,500 price changes. There are more than 10,000 listings, and over 1,700 illustrations. Pricing on U. S. commemoratives is for unused and used singles, blocks, plate blocks, full sheets, and on issues, from 1920 onward, first day covers. The catalog has a number of special features, such as a list of famous people honored on U.S. stamps, alphabetically arranged; biographical sketches of our presidents; and other background information. Type is of a size and clarity that is easy on the eyes and can be read without difficulty. Illustrations are clear and well-defined. An excellent catalog, and a great credit to Mr. Minkus and his editor, Ben Blumenthal. Price is $3.00 at the stamp and coin departments of leading department stores, or through your favorite stamp dealer or book store.

Volume I of the Minkus New World-Wide catalog includes the United States and Possessions, the British Commonwealth, Latin America, and the Independent Nations of Asia and Africa. Its 1248 pages carry more than 75,000 entries and reflect over 50,000 price changes, mostly upward. Background information is given on each of the countries. There has been a complete upward revision of prices in the Indian States section of the British Commonwealth; and in the Latin American group there is a noticeable upward climb of topicals, now so greatly in demand.

Editor in Chief is George Tlamsa, and Art Director is Rudy Vecerin, both of whom again have done an outstanding job on this catalog, which has many special features, too numerous to mention. The ever increasing popularity of the Minkus catalogs stands as its own tribute to the effort and excellent results of that effort on the part of its publisher and his staff.

The price of the World Wide Volume I is $7.95, and again, this may be secured from stamp dealers, bookstores, or from stamp departments of department stores throughout the country, which are listed in the regular advertising of *Minkus Publications, Inc.*, in this magazine.

Volume II of the World Wide is expected early in October.

U. S. Army SETAF Slogan-Cancelled Covers

THE United States Army Southern European Task Force is celebrating its fifth birthday with an Italian-American Stamp Exhibition which will be held at the U.S. Army's Arena Service Club in downtown Verona, Italy, from 22 to 29 October 1960.

The Italian Ministry of Posts and Telecommunications has authorized the use of two special slogan cancellations to be used on all postal matter processed at the special substation established at the SETAF Stamp Exhibition on 25 October. This is believed to be the first time that a NATO nation has so philatelically honored a military unit of the United States.

SETAF, a bi-national Italian-American missile command, has its Headquarters at Verona, Italy, and from there the Command directs the activities of the 1st U.S. Army Missile Command and the third Italian Missile Brigade in Vicenza, and the 8th Logistical Command in Leghorn. Among the many peacetime responsibilities of SETAF is the promotion of cooperation and understanding between the American and Italian communities under President Eisenhower's "People to People" program.

A large showing of United States and Italian stamps is planned at the Exhibition. A special card has been prepared for the occasion by the Associazione Filatelica Scaligera, the local Italian stamp club, which is collaborating in the stamp exhibit.

The card, posted with Italian stamps and cancelled with the special postmarks, is offered at the cost of 25 cents for surface mail; 35 cents via air mail. It may be had by writing to *Mr. S. J. Rizza, Hq. USASETAF, Judge Advocate Division, APO* 168, *New York, New York,* American representative of the AFS, via air mail (boat mail via the APO will not reach Mr. Rizza in time). Coins or money orders accepted — no stamps, please.

United States ...Notes

ROBERT A. TAFT
DATE OCTOBER 10

POSTMASTER General Arthur E. Summerfield has announced that the 4-cent Robert A. Taft Memorial stamp will be first placed on sale October 10, 1960, at Cincinnati (2), Ohio.

Covers already forwarded to the Cincinnati Postmaster, based on the approximate date announced previously, will be held for first day cancelling on October 10. Collectors who have not yet done so should send addressed envelopes by airmail at once to the *Postmaster, Cincinnati 2, Ohio,* with remittance to cover the cost of the stamps to be affixed.

Each envelope must be marked, in pencil, in the upper right corner, indicating the number of stamps to be affixed. An enclosure of medium weight should be placed in each envelope and the flap either turned in or sealed. The outside envelope to the Postmaster should be clearly marked "First Day Covers Taft Memorial Stamp." Collectors are cautioned that orders for covers must not include requests for uncanceled stamps.

American Credo Motion Picture of U.S.P.O.D.

Our American Credo is the title of the Post Office Department's newest motion picture now available for public showings by bookings through the Postmasters of the country.

This sound film is available in both full color and black and white prints, and takes 13½ minutes to show. It features the significance of the six American Credo stamps and should prove unusually popular to mass audiences as well as to civic, social, school, veteran and philatelic groups.

The film, narrated by *Matt Crowley,* opens with exterior views of Mount Vernon, and links George Washington, whose "Observe good faith and justice toward all nations" was featured on the first of the "American Credo" stamps, with Thomas Jefferson, Benjamin Franklin, Francis Scott Key, Patrick Henry, and Abraham Lincoln, whose precepts are emphisized on other stamps in this series.

How stamp designs are chosen . . . the Postmaster General's Citizens' Stamp Advisory Committee in action . . . the significance of the "Champion of Liberty" stamp are other highlights of this fast moving story.

Requests for this film should be made to local Postmasters.

Correction On Slogan Cancellation

A recent post office department release gave Hot Springs, Florida, as using the special postmark "75th Anniversary 1960". The post office should have read *High Springs, Florida.*

Key to Printing Methods

By O. L. HARVEY

(Editor's Note: This article is a key based on a more extensive article by the same author which will appear, together with very interesting enlargements, in the forthcoming American Philatelic Congress Book.)

THERE are many ways of printing postage stamps, and catalogs are not always a satisfactory guide. In the following simplified key, with illustrations and brief descriptions, the principal ways are identified.

The key is an abbreviation. To use it effectively, you need to study the illustrations. To appreciate the illustrations, it is helpful to be shown what to look for. Even then it is not always easy to pick up a stamp and say what method of printing was used. But the key will help.

Screen Images:

I. Image composed of dots only: (1) Dots of same size and regular shape: centers equidistant on a gridwork of white lines (Paragraph G). (2) Dots of different sizes and irregular shapes: centers equidistant, ink flat: (a) Dot outlines show bleeding (Paragraph P); (b) Dot outlines show no bleeding (Paragraph X).

II. Image composed of dots and lines only: (1) Dots of different sizes and irregular shapes: (a) Centers not equidistant; ink stands up (Paragraph R).

Line Images

I.) Image composed of dots, lines, and areas: (1) Ink stands up: (a) Lines fuse (Paragraph A); (b) Lines do not fuse (Paragraph E). (2) Ink lies flat: (a) Edges of printed parts show bleeding (Paragraph T); (b) Edges of printed parts show no bleeding: (b1) Deposition of ink patchy (Paragraph L); (b2) Deposition of ink even (Paragraph 0).

Other Images

I. Image composed of undifferentiated fine granulation of dots and crinkly little lines (Paragraph C).

II. Image raised and blank (Paragraph M).

Each printing method in this section is identified below with the capital letter shown in the key, followed by a classification name with some popular names and a brief description of the chief identifying characteristics.

The three main classifications are: In relief printing the printing parts are raised above the non printing parts. In recess printing the printing parts are sunk below the non-printing parts. In planograph printing the printing parts are at the same level as the non-printing parts.

Screen Images

Images composed entirely of dots are prepared by photographing the design through a screen, which breaks up the image into minute dots, and then transferring to a printing plate. Screens are formed by a fine crosshatching of parallel lines. On images consisting of dots and lines only the dots are formed in different sizes and irregular shapes by spattering rosin powder on a warmed glass plate. The lines are then retouched with a graving tool.

(G) *Crossline-screen recess printing* (rotogravure, photogravure). Dots are minute rectangles or circles of equal size and shape on a uniform grid of fine white lines. Grid is not always evident. Look chiefly at thinly inked areas and along edges of lines. Angle of grid varies with primary color used. Ink stands up slightly from paper. General impression: Fine gradation of tonal values, especially suited to portraits and other natural objects. First used, Bavaria 1914; now in common use. Examples: one color, Austria, general issue, 1945 (Ill. A); more than one color, separate, Netherlands, flower issue, 1953 (Ill. B); more than one color, superimposed, San Marino, flowers issue, 1957 (Ill. C); in latest method dots are circles, Spain, Goya issue, 1958 (Ill. D).

(P) *Crossline-screen relief printing* (letterpress halftone, photoengraving). Although arranged in a regular grid, dots vary in size and shape; smallest are isolated and round, largest fuse together in see ingly irregular shapes. Ink lies on paper. General impression: l newsphoto, but usually finer scre Gives fairly good tonal values. Si they are printed directly onto pap the dots show bleeding at edg Infrequently used in stamp printi First used in Switzerland, Pro ventute, 1912. See also Dominic Republic, Mother's Day Star 1940 (Ill. E).

(X) *Crossline-screen planogr printing* (offset halftone, photolit graph). Similar to (P) in all spects except that, being prin by offset, it shows no bleed Examples: in one color, Bra Constitution stamp, 1946 (Ill. Where more than one color is volved, the screens for the differ primary colors are set at differ angles, so that some dots are their own color, while others superimposed to give mixed col Dots of different colors there arrange themselves in what lo like a pattern of dotted circles. ample: Russia, recreation issue, 1 (Ill. G).

(R) *Spatterscreen recess pr ing* (photogravure). Dots are various sizes and irregular roun shapes. Grid of crosslines is l ing. Lines are firm and clean a an engraving. Ink raised on pa General impression: Excellent dations in tonal value. Looks though done with crayon. method is seldom used. Exam Finland, postal services annivers issue, 1938. (Ill. H).

Line Images

Images composed of lines areas are transferred to the prin plate without the interposition screen. Thus the image is not b en up into screen dots. Some ima are made up entirely of lines parts of lines (dashes, dots, et others are made up of lines, p of lines, and solid areas.

(E) *Line recess printing* (eng ing and etching, hand engrav line engraving). The image is posed of lines, simple or cr hatched. Seemingly solid areas actually hatched. Because of th

ustrations A through X, as keyed in accompanying article, showing stamps that have been produced by the various printing methods discussed.

mensional construction, the lines e rich in tonal quality. Because e design is printed under heavy essure, the back of the stamp ually shows depressions where the paper was pressed into the grooves. General impression: Crisp and clear, vivid and pleasing. Usually only one color. But often two separate colors are laid down in separate printings, one for center, another for frame. Since about 1950, engravings have been printed in several colors in the same run, but each color is separate. This method

of printing is well suited to portraits and scenery. Because it is difficult to counterfeit, engraving is used entirely in the U.S.A., and often used for higher values in other countries. Examples: one color, copper plate, Switzerland, Pestalozzi, 1927, small size (Ill. I); one color, steel plate, Belgium, King Baudoin, large size, 1952 (Ill. J); two colors, two printings, China, Temple of Heaven, 1909 (Ill. K); several colors, one printing, France, art industries series, 1954 (Ill. L).

Line recess printing often involves the use of acid for etching as well as the engraving tool for heavier lines. The only stamp to my knowledge which is etched throughout (except for the lithographed blue background lines) is Germany, plowman and horses, 1921. (A) (Ill. M).

(T) Line relief printing (typography, letterpress). The image is composed of dots, dashes, lines, and solid areas. The ink lies flat on the paper. Pressure necessary in this method of printing results in ridges viewed from the back of the paper. It also forces some of the ink out from under the edges of the printed parts, which therefore usually show minute bleeding of ink along the edges of lines and areas. General impression: Colors are often bright, but flat and somewhat harsh. Poor tonal qualities. Colors are printed separately. To avoid overlapping, designers usually allow a minute space between colors, or print a separating line in black, or with one color dark or heavy next to another light or thin. This is a flexible method of printing, and has been very extensively used. Some of the best in this category look like engravings, but use coarser lines, and the ink lies flat. E amples: one color, simple line, J pan, pagoda, 1952 (Ill. N); o color, composed of lines like tho in engraving, Austria, royalty issu 1908 (Ill. O); one color, like e graving but in reverse, Switzerlan franchise issue, Dunant, 1935 (I P); two colors, one imposed on t other, Japan, regular issue, 25 se 1937 (Ill. Q); several colors, sep rately printed, Switzerland, Pro J ventute, 20 cent, 1921 (R).

(L) *Line planograph printing a rectly from stone* (lithography This is the true lithography, used f a few of the earliest stamps, but n since. The stone was used for t one color; other colors were som times filled in by hand. Inking usually blotchy, and the colors fa ed. Example, Romania, 1868 iss (Ill. S).

(O) *Line planograph printing i directly from offset cylinder* (li offset, offset lithography). The imag is photographed without screen, a is printed by way of a rubbe blanket onto the paper. As a r sult the ink lies flat on the pape Since there is virtually no pressur there is no bleeding of ink. Colo are likely to appear rather flat an dull, but smoothly cover the print area without blotchiness. Colors a usually separate, but can be supe imposed if of nearly the same colo Examples: one color, chiefly in lin and dots, Argentine, presidents i sue, 1935 (Ill. T); one color, chief in solid areas, Greece, Pan-Balka games issue, 1939 (Ill. U); two co ors, superimposed, Argentine, Chri of the Andes, 1934 (Ill. V).

Image Has No Definite Lines o Screened Dots

(C) *Planograph printing fro gelatin film (collotypy)*. This met od was one of the first invent of photographic methods of repr duction, but is seldom used toda except by Russia. The image is ne ther line nor screen, and looks li a photograph with excellent grad tions of tone. Examination under lens shows the ink deposited as very fine crinkling, caused by co traction of the gelatin printing ba when developed in cold water. can be used for either direct or of set printing. Example: Russia, Le in portraits, 1945 (Ill. W).

Image Center Is Raised and Blan

(M) *Embossing*. Center is raise by pressure. Printed part may b engraved, typographed, or offse Example: Germany, St. Bonifatiu 1954 (Ill. X).

Canal Zone No. 15 in Block of Four

ON page 484 of STAMPS, June 25, 1960, in reporting recuperation of *Judge Edward J. P. Tatelman,* mention was made of his Canal Zone collection, and it was stated that it was complete in blocks except for No. 15, "which is not known to exist in a block."

Canal Zone #15 in block with one stamp having the spaced A L.

John B. Wright, a Canal Zone specialist residing in Panama, submits the accompanying photograph of a block of four of No. 15, in contradiction of the quoted statement.

Mr. Wright advises that the positions of the block are 31, 32, 41, 42; and in position 41 is seen the spaced A L.

Manuel Galvez

THE internationally well known stamp dealer, *Manuel Galvez,* of Madrid, Spain, died on Sunday, September 25, 1960. He was about 65 years old.

Mr. Galvez was president of the Spanish Stamp Dealers Association, and had been for many years an important factor in international philately. He specialized in the rare classic stamps of Spain, and was an expert in Spanish philately, acting frequently as an expert on international committees.

Mr. Galvez published a monthly magazine called *Madrid Filatelico,* an excellent house organ with general news and articles, as well as supplements to the Galvez catalog of the stamps of Spain.

The name of *Manuel Galvez* appeared frequently in the columns of STAMPS for many years, as he has been supplying us with information on new stamps and other phases of philately in Spain ever since the magazine was introduced in 1932. It is with deepest regret that we learned of the passing of our good friend, one who has always been a constructive force in philately.

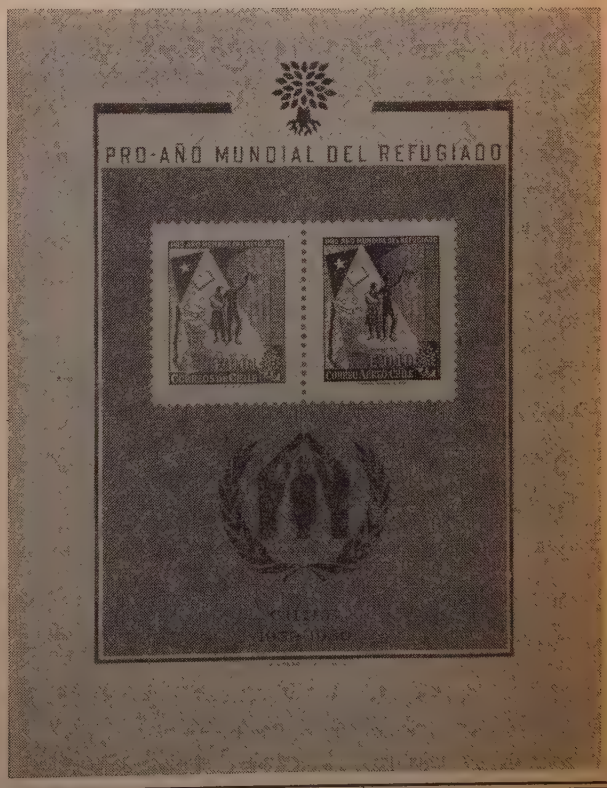
WORLD REFUGEE YEAR 1960 SCARCE CHILE SOUVENIR SHEET

A modern rarity at its issuance . . . since only 3000 sheets were issued and sold out only one to a customer to the Chilean philatelists.

Souvenir sheets of Chile have always been scarce since their sheet issues are extremely limited (see Scott, Yvert, Sanabria and Michel Catalogs).

Because this is a W.R.Y. item, the demand is overwhelming; and we believe this is a major modern rarity and soon will not be obtained at anywhere near this price. We only have a limited number of these, so it must be first come, first served.



Price: $49.50 postpaid

Gandhi Champion of Liberty Stamp Announced

POSTMASTER General Arthur E. Summerfield, announced on October 1, the eve of the ninty-first anniversary of the birth of *Mahatma Gandhi* of India, that "Champion of Liberty" postage stamps will be issued honoring the revered Indian leader who said "Freedom is the gift of God . . . the right of every nation." The Gandhi stamps in the 4-cent and 8-cent denominations will be issued on January 26, 1961, at Washington, D. C., on India's national holiday, Republic Day.

Referring to Gandhi as Gandhiji, using the Indian term of respect, Mr. Summerfield said, "Gandhiji, known to the world as a physically frail man, led India to freedom. Only in freedom, he believed, could India's people achieve dignity, prosperity, social justice and self-fulfillment.

"Gandhiji's faith in human nature and his devotion to freedom inspired not only India but all of mankind. 'Swaraj' — freedom, 'Satyagraha' — passive resistance, and 'Sarvodaya'—the welfare of all, are principles which he dramatized and practiced to inspire courage and dignity. They served as testaments of faith to inspire the world then and are today a rich legacy for all men who search for truth and justice in a world which finds freedom a reality still to be attained," Mr. Summerfield concluded.

TIPOFF

HUNGARY—Scott's #1260, last year's Haydn and Schiller souvenir sheet, is still selling for the new issue price of $1.00. According to the new wholesale pricelist of Philatelia Hungarica, they are now asking $1.50 for the same sheet. There are probably still quite a few of these souvenir sheets available here in the States for the new issue rate, but when these reach collectors' hands, replacement will cost twice as much. The 1960 Rome Olympic Games souvenir sheet, recently issued, is not available any more from Hungary, and more than three times the cost of the new issue rate is being asked from sources other than Philatelia Hungarica. This government export agency claims that the edition of the perforated and imperforated Olympic souvenir sheets were oversubscribed from the beginning, and a fair-to-everyone allocation had to be enforced. The Haydn, Schiller and Olympic Games souvenir sheets are picked as this week's TIPOFF because they both are very strong topical issues with possibilities. They should be bought while still selling within everyone's means.

LUXEMBOURG — Scott's #278-9, pl. #C16-20, the Centilux 1952 issue, went up only slightly in the 1961 Scott's Catalog. Stocks, however, are small and the demand is great with centennial collectors still seeking and buying it. I think that this Philatelic Exhibition issue is still undercataloged and is one you should make sure to get soon.

GERMANY (WEST) — Scott's #678-685, the 1951-2 Numeral series, almost doubled its valuation in the 1961 Scott catalog, at $24.07. According to German offerings, however, it seems that at a price which is close to this new valuation should be a bargain as German dealers are now paying close to this new listing. If you still are missing this issue in your collection, buy it at best.

RPATHO-UKRAINE — Scott's #1, the last and only stamp of this former noslovakian territory, which went to t Russia after World War II, cata- mint at 40c and is unpriced used. es off cover are very seldom seen if any should come your way, be ul of the cancellation. The only way ollect this stamp is used on cover. a clear CHUST cancellation (mostly d), which shows the date of issue. covers are very rare and fetch up to 00 a piece. I owned only one such ne cover in the past twenty years, you may be lucky enough to find for less. If you can buy this cover est, the chances are that it will ap- ate in the years to come.

YPRUS—Now that the new Republic as been released, it will soon be re- d with a set of new definitives. This nt overprinted set has possibilities, nding on the number of overprints should therefore be bought now e being offered right here in STAMPS $7.30 to $7.50.

ATICAN—German dealers are offering million German marks or approxi- ly $250 for the 1934 provisionals, 's #35-40, in genuine condition, and 00 for a mint set of Scott's #16-17, $50.00 for a used one. A short time hese provisionals were available for $225.00 to $250.00 right here in MPS.

Letter Writing Week

THE 23rd annual Letter Wrting We will take place October 2 to 8, Po master General Arthur E. Summerfie has announced.

The slogan of this year's event is "L ters Are Links to Friendship." The d play material will appear in post offi lobbies, on vehicles on rural carri routes, and in schools and libraries.

Mr. Summerfield noted that the has been a revival of personal let writing during the last few years, a added, "A letter remains the most ec nomical, longest lasting, and most si cere means of extending greetings, co municating social news, and exchangi ideas."

Posmaster General Summerfield su gested that during Letter Writing We individuals write at least two letters: o to a friend or relative from whom y have not heard in a long time, and t second as a reply to a friend or relati who recently wrote to you. He al urged correspondence to people in oth countries as a means of promoting gre er understanding among the people of d ferent nations.

As in previous years, Letter Writi Week will be officially proclaimed hundreds of governors and mayors.

Parade of Bureau Precancels

SOUTH CAROLINA

ONLY eight post offices used Bureau Precancels from the Palmetto State. large Old Style were used by any them. Fact is, only three Post Offices d the small Old Style Bureaus. This e, nevertheless, has one of the outnding rarities to its credit: the Colum- 3c Lincoln coil, GC Standard Bureau alog No. H60.

These coils were used by the State hway Department in 1927-28 to mail license plates. The plates took 9c tage, so presumably these coils were d in strips of three. Not many plates nt to stamp collectors, and few Bu- u collectors lived in South Carolina in se days.

The few pairs reposing in the older ections were given as Christmas pres- s to his friends by the late *C. A. Car-*, of Atlanta, Georgia. Today a single y of this coil precancel sells for .00 and double that amount for a r, providing of course that you can them.

The 1c and 1½c coils in the small l Style were pretty hard to get for ng time, but somehow a collector did nage to get hold of a supply. Today y are available at a reasonable figure, nks to this collector's effort.

The Presidentials from this city are exactly common and since the coils e been replaced with the Liberty coils, se bear watching.

A scarce item is the 1c sheet stamp n Anderson in the small Old Style. ee values have been used in the sidential series.

Greenville has a scarce Presidential to credit, the 1½c narrow-spacing. Most ectors need it; do you?

Greenwood used a 1c in the small Style, which is not common at all. as replaced with the 1c narrow Presi-

dential, which is more readily obtainable. No wide-spaced Presidentials were used, and only the two items mentiond were used from Greenwood. Always remember, we talk about *Bureau Precancels* in this *Parade*.

Spartanburg used only one Bureau Precancel, that is the 1½c narrow Presidential which is very scarce. Fact is, we only have seen a few copies dated with a nice printed imprint "SEA Aug. 56." However, we do not recall off-hand who used them or what the initials stand for.

Rockhill used three Presidential coils which have been replaced with Liberty coils. Most Rockhill coils come badly clipped. The 3c wide-spacing Liberty coil has been replaced with a 3c narrow-spacing coil. Here is one stamp that may become a rarity as it is on all want lists. We never had the 3c widespaced Libery coil. This is again a reason why we always preach—get your Bureau Precancels while they are available, this rule of course applies to all Precancels.

STOP BUYING DUPLICATES

The WILSON PLAN

Want to cut down on accumulating duplicates? Want to build up those weak countries economically? Then the Wilson Plan is the answer. Here is the idea in a nutshell: For example, you have, say 150 diff. Paraguay stamps in your collection. You decide you wish to increase it to 300. You deduct the difference in price from our list. Your 150 different are worth $2.00; the 300 different $6.50. You remit the $4.50 difference. We send the 300. You remove the 150 you do not have, returning the remaining 150 to us. It is that simple! Or you might decide to increase to 400. It can work on any size packet on any country from our list as long as the difference is $3.00 or more per country. Send for the WILSON PLAN APPLICATION and latest packet price list offering almost 1500 different collections.

Catalog of Vignettes of Olympic Games

Catalog of Vignettes of Olympic Games by Paul F. Rampacher. Published by Hermann Bollhardt, Itzehoe, Holstein, West Germany. Available from the published at Dithmarscher Platz 9, Itzehoe, West Germany for $1.00 U.S. or 4 German marks.

THIS catalog of twenty-eight pages is in German and is priced in German marks. The introduction is in German and French, and the abbreviations used in the descriptions are explained in German, English and French.

The catalog is the second on this subject by the author, whose first edition appeared in 1956 in the German periodical *Merkur*. The author has been collecting these and other categories of vignettes (also sometimes called "labels" or "seals") for half a century or more and is an authority in this field.

This second enlarged edition contains all known vignettes issued for international Olympic games from Athens in 1906 to and including Melbourne in 1956. The author explains that there were no vignette emissions for the games in Athens in 1896, Paris in 1900, St. Louis in 1904, and the first Winter Olympiade in Chamonix.

The catalog is arranged in groups for each Olympiade, listing the official issues of the host country, the issues of the participating countries, and other issues pertaining to the games. There are four pages with 52 illustrations of the rarest vignettes. About 400 basic items are listed and, with color and perforation varieties, approximately 800 items are included.
